Giant Bus Runs on Veggie Oil, Solar Power *The Big Green Bus Fuels Up in the Valley*

Phoenix, AZ, July 23rd, 2010 – Waste Management is pleased to welcome the Big Green Bus to the Valley of the Sun! Sponsored by WM, Dartmouth college students converted the bus to run on vegetable oil. This summer, the students are on a nationwide educational tour to show off their Earth-friendly creation. The bus will stop in Scottsdale on Monday, July 26th to fuel up with veggie oil at the Compound Grill. For more info, go to www.thebiggreenbus.org.

EVENT INFO

Date: Monday, July 26th

Time: 11am-1pm

Location: Compound Grill (7000 E. Mayo Blvd. in Scottsdale, in front of the restaurant)

Visual Opportunities: Tours of inside the bus, solar panels and other “green” features, visuals of bus fueling up with veggie oil

Interview Opportunities: Student interviews, WM interviews, Compound Grill interviews

BIG GREEN BUS FACTS

- **Veggie Power:** The bus runs on veggie oil—it fuels up at restaurants, not at gas stations!
- **Solar Power:** All electricity inside the bus for the air conditioning, computers, tv’s, refrigerators, and lighting is generated from solar panels!
- **Battery Power:** Unused veggie oil energy is stored in high-efficiency batteries underneath the bus!
- **Green Decor:** The floor and the cabinets are made of sustainable bamboo!
- **Education:** The students’ goal for the road trip is to educate the public on alternative fuel sources and sustainable living!

About Waste Management

Waste Management reminds its communities that where others see waste, we see opportunity. We're working to find the most efficient and forward-thinking approach to waste. With the help of our communities, all of us can help protect the environment and improve the quality of life on the planet we share.

Waste management and its 980 Arizona employees provide waste and recycling services to nearly 500,000 customers throughout Arizona. For more information, go to www.wmofarizona.com.

Waste Management, based in Houston, Texas, is the leading provider of comprehensive waste management services in North America. Our subsidiaries provide collection, transfer, recycling and resource recovery, and disposal services. We are also a leading developer, operator and owner of waste-to-energy and landfill gas-to-energy facilities in the United States. Our customers include residential, commercial, industrial, and municipal customers throughout North America.
